

DAMIAN WALCZAK

ABOUT ME

My name is Damian, and I am a computer science student at the Opole University of Technology. I am interested in technological innovations, the IT world, and especially programming. In addition, I have other interests such as music, automobiles, and travel. I have experience in programming in various languages as well as in teamwork. I am someone who is very committed to what I do and strives to perform my tasks as best as possible. I am ambitious, continuously expanding my programming skills, and I quickly grasp new knowledge. Besides my passion for computer science, I also value personal development and activities that support my creativity.
